Mata Kuliah	: Bahasa Inggris I	Hari/Tanggal	:
Prog. Studi	: Teknik Informatika	Waktu	:
Dosen	: Sulasih, S.S., M.Pd	Sifat Ujian	: Tutup Buku
Semester	: 1	Shift	: Reguler A

I. Read the text below carefully and answer the following questions well (25 points)

Computers and microchips have become part of our everyday lives; for example calculators, the car's electronic ignition, the timer in microwave, or the programmer inside the VCR; We pay bills prepared by computers, just picking up a telephone and dialing a number involves the use of a sophisticated computer system, as does making a flight reservation or bank transaction.

Every day we encounter computers that spring to life the instant they are switched on, we visit shops and others which have been designed with the help of computers.

What makes your computer such a miraculous device? Each time you turn it on, it is a blank slate that, with appropriate hardware and software, is capable of doing anything you ask. It is a calculating machine that speeds up financial calculations, it is an electronic filing cabinet which manages large collections of data, such as customers' list, accounts, or inventories, it is a magical typewriter that allows you to type and print any kind of document; letters, memos or legal documents; it is a personal communicator that enables you to interact with other computers and with people around the world; if you like gadgets and electronic entertainment, you can even use your PC to relax with computer games.

Please write down your own question based on the text above.

1. What people use computers for?
2. What a computer is useful for company?
3. How do computers work?
4. What kind magical typewriter?
5. What things can be used computers other than commercial purposes?
