Company History

The history of PT. Ngebutt Exspress Jaya began on May 12, 2020. On that day officially PT. Ngebutt Exspress Jaya inaugurated its head office in Gading Serpong, Tangerang, Banten. Although this company is a new company in the field of freight forwarding and expedition services, PT. Ngebutt Exspress Jaya is optimistic that it will become a superior service and an option for the people of Indonesia.

The presence of PT. Ngebutt Express Jaya as a new company in Indonesia is committed to serving the needs of the public. PT. Ngebutt Express Jaya is ready to serve Indonesia for fast, convenient and reliable delivery services. Technology-based innovation is the priority. Then, PT. Speed Express Jaya provides premium services at low prices with premium quality.

Actually, there have been many similar retail freight forwarding companies that have been established long before PT. Speeding Express Jaya. several companies that are well-established in this field include Tiki and JNE, which have been trusted by the Indonesian people for decades. Not to mention Pos Indonesia which is a company (BUMN) that was established since the Republic of Indonesia has not been established.

Organizational Structure

Company Vision And Mission

Vision

To become a leading, reliable and professional cheap expedition service company which not only prioritizes its excellence but will always improve quality service in order to provide satisfaction for customers.

Mission

1. Providing cheap and reliable shipping services
2. On time and time
3. Prioritizing commitment and professionalism in an effort to provide the best and reliable service
4. To be the right delivery service solution

PT. NGEBUTT EXPRESS JAYA

Expedition services are a practical solution for trade business people anywhere. Moreover, the current trend is to trade online, which allows consumers to come from various regions.

In the midst of their busy lives, business people cannot send all their goods to consumers.

From there, the best expedition services were born that can deliver goods safely to consumers. Currently, there are more and more expedition service companies, you should also know what an expedition service is in detail. Either as knowledge or even later you will build a shipping company.
