## **Our Philosophy**

This company was formed on the cooperation of the six of us. We are Roni Sefia, Rahmat Prasetyo, Muhammad Djafar, Hanif Fauzi, Rizki Febriansyah, and Aldo Hermawan. From the opinion and input together, we decided to form a company in the textile sector. We know that there are opportunities in the textile sector, where textiles are opportunities because in the textile sector we can continue to run in any condition. Everyone will still need textile materials from cloth for everyday to work. Textiles will have a long life in the business world. After we made a consensus, we named this company PT. Warna Java Nusa. Why do we use this name? Because we want to elevate Javanese culture to the products we will produce. With this we also want to introduce Javanese culture to the textile world, then they will know that Javanese culture can adapt to the era of modernization.

# ADDRESS

Jl. Ciwasta No. 271, Wargasari, Kec. Buahbatu,  
Kota Bandung, Jawa Barat 40287, Indonesia.

# Products and Services

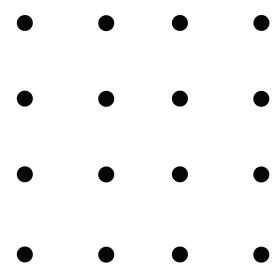

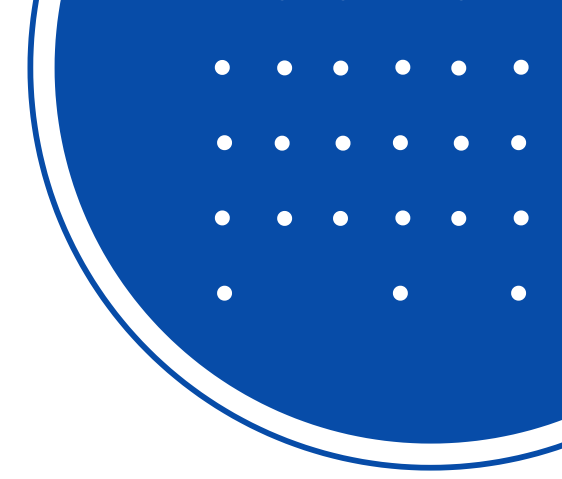

We will issue 3 products and 1 service. The products themselves include Cotton, Tycoon Tropical, and Castilo. Then we also receive services for the manufacture of uniforms.

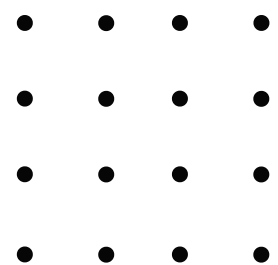

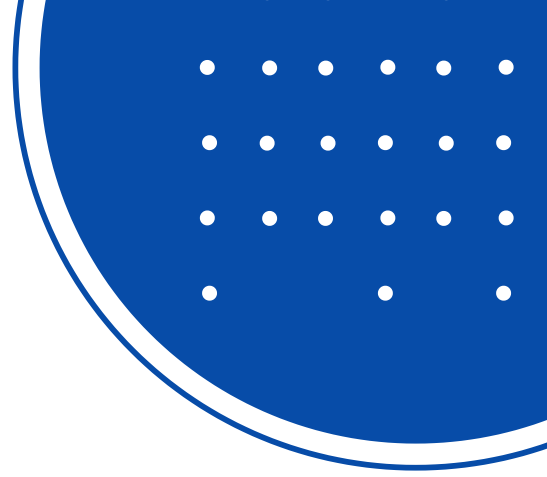

# COTTON

Cotton in general does not cause allergies or irritate the skin. Without having to make the skin moist, cotton fabric is able to absorb sweat well. Cotton can be used in various types of weather such as hot or cold. Cotton cloth is also widely used as the main material for making clothes, ranging from socks, pants, underwear, robes to hijabs.

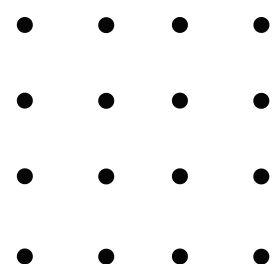

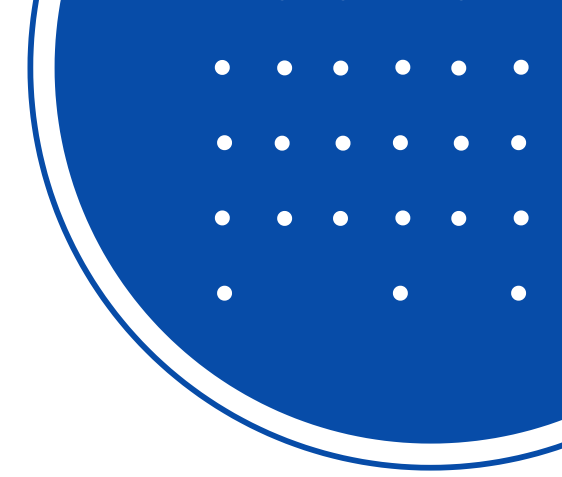

# TROPICAL TYCOON

Taipan Tropical fabric is a material which is a mixture of polyester and cotton compositions, with a higher ratio of cotton content, so that when worn it stays cool. This type of fabric for uniforms has the same fibers as oxford and the material is smoother. and usually Taipan Tropical office uniform fabric is the standard material used for BUMN, PNS and other government agency uniforms.

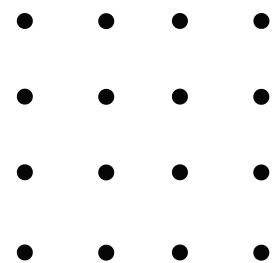

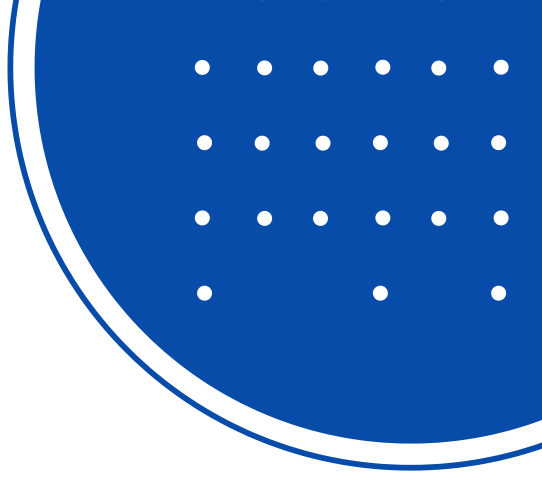

# CASTILLO

Castillo material is often used for official clothes (PDH and PDL) and work clothes because the texture tends to be not stiff and not too thin. This castillo drill material is used because the color choices are very diverse with the strength of the war. This castillo drill material is also included in the ranks of favorite drill fabrics because apart from the color that doesn't fade easily, this castillo drill material is also affordable, to say it's not too expensive.

# UNIFORM

In addition to fabric, we also serve the manufacture of uniforms. Uniforms that we make can be made to order, from the design and material. With experienced tailors, we present neat and comfortable stitches to use.
