# PRODUK PRODUCT

## 1. Cash (Rp 300,000)

Simple Application to manage cash money as well as expenses. This application can only handle one class only. Even so, this application is very practical and remains optimal by being able to handle cash in a few years and provides much-needed features such as: payment and expense history, monthly results reports and others.

The screenshot shows the 'Uang Kas' application interface. On the left is a dark sidebar with user information ('aisyah123') and navigation links ('Dashboard', 'Siswa', 'Uang Kas', 'Pengeluaran', 'Laporan', 'Riwayat Uang Kas', 'Riwayat Pengeluaran'). The main area is titled 'Uang Kas' and 'Pilih Bulan Pembayaran'. It compares 'Mei 2022' (Rp. 120,000) and 'Juni 2022' (Rp. 0). A button '+ Tambah Bulan' is visible in the top right. At the bottom, it says 'Copyright © 2020 By Andri Firman Saputra. All rights reserved.' and 'Version 1.0.0'.

The screenshot shows the 'Detail Bulan Pembayaran : Mei 2022' page. The sidebar is identical to the previous one. The main content displays 'Rp. 5,000 / minggu' and a table showing payment status for six students over four weeks. All students have checked boxes in all columns, indicating they have paid. The table has columns: No., Nama Siswa, Minggu ke 1, Minggu ke 2, Minggu ke 3, and Minggu ke 4. The footer shows 'Showing 1 to 6 of 6 entries' and navigation buttons for 'Previous', '1', and 'Next'.

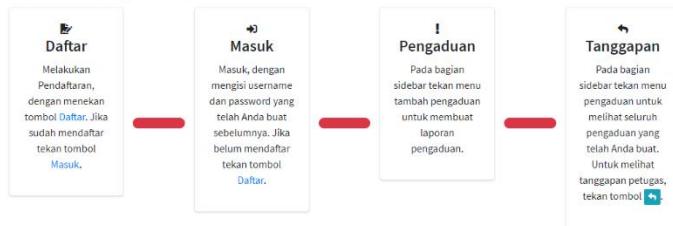

## 2. Report Zone

The Report Zone is the management of public service complaints in the South Tangerang area, every organizing organization in Indonesia has not been managed effectively and integrated. Each organizing

organization manages complaints partially and is not well coordinated. As a result, there is a duplication of complaint handling, or it can even occur that a complaint is not handled by any of the organizing organizations, on the grounds that the complaint is not under their authority. Therefore, to achieve a good and correct vision in handling public complaints, it is necessary to integrate an effective public service complaint management system. The goal is that the community has a good, correct, organized and trusted complaint channel.

## Tata Cara Penggunaan Zona Lapor

## Tentang

Zona Lapor adalah pengelolaan pengaduan pelayanan publik di daerah Tangerang Selatan, setiap organisasi penyelenggara di Indonesia belum terkelola secara efektif dan terintegrasi. Masing-masing organisasi penyelenggara mengelola pengaduan secara parsial dan tidak terkoordinir dengan baik. Akibatnya terjadi duplikasi penanganan pengaduan, atau bahkan bisa terjadi suatu pengaduan tidak ditangani oleh satupun organisasi penyelenggara, dengan alasan pengaduan bukan kewenangannya. Oleh karena itu, untuk mencapai visi yang baik dan benar dalam penanganan pengaduan masyarakat maka perlu untuk mengintegrasikan sistem pengelolaan pengaduan pelayanan publik yang efektif. Tujuannya, masyarakat memiliki saluran pengaduan yang baik, benar, terorganisir dan terpercaya.
